The Post Office Electrical Engineers' Journal

INDEX

VOLUME 60

April 1967—January 1968

INDEX

PAGE NO.

A

Ambergate Electronic Exchange (S) 77
Announcer, No. 9A, A New Announcing Equipment—Equipment, ... 264
Artificial Ear, A New 47
ASKEW, E. A. Recent Changes to Telephone Exchange Equipment Engineering and Installation Methods .. 59
Associate Section Notes 78, 158, 238, 312
Automatic Error-Correcting Radio-Telegraph Multiplex System, An 187
AYERS, E. W., and WILLIAMS, F. E. Human Factors in Telephony 174

B

BARRON, D. A. (Retirement) 138
BAILEY, K. E. A New Announcing Equipment—Equipment, Announcer, No. 9A 264
BILLEN, J. C. (Appointment as Staff Engineer) 151
Birmingham, Tunnelling by Pipe Thrusting in (S) 312
BISHOP, K. G. T., and ROBINSON, H. E. Joint Loading of Local-Line Cables 101
BOAG, J. F., and HEPPLESTONE, L. Transatlantic Telephone Cable TAT-1 Plus Ten Years 195
Box-Building Vehicle, The Development of a 131
Brazed Seals in Deep-Sea Repeaters, Quality Control of .. 44
Bridgwater Head Post Office Foundation Stone (S) .. 311
BROCKBANK, R. A. (Retirement) 152
Burnley Exchange Rearrangements (S) 237

C

Cable Joints and Gland Mouldings, X-Ray Inspection of Polythene-Insulated Submarine- 280
Cable TAT-I Plus Ten Years, Transatlantic Telephone .. 195
Cables—Dessicator, Automatic, No. 1A, An Improved Dessicator for Pressurizing Telecommunication .. 224
Cables, Drying Out Joints in Paper-Core (S) 180
Cables, Joint Loading of Local-Line 101
Cables, Synchronous Multiplex Telegraphy on Intercontinental Submarine Telephone 52
Call-Failure Detection Equipment: Interim Equipment for Director and Non-Director Exchanges 202
CALVELEY, C. E. (Appointment as Director of Engineering) 150
Changes in Post Office Organization 123
Character-Recognition Machine, Computer Simulation of a (Parts 1 and 2) 39, 104
CHARLTON, E. W. Trench-Cutting Machines 14
CHESTERMAN, D. A. An Automatic Error-Correcting Radio-Telegraph Multiplex System 187
Closed-Circuit Television at the University of Leeds (S) .. 156
Coleshill U.A.X. 14, Fire at (S) 311
COLYER, J. O. A New Manhole-Cover Lifter—Lifter, Manhole Cover, No. 3 251
Computer, Information Indexing by 28
Computer Simulation of a Character-Recognition Machine
Part 1—Processing a Character for Recognition .. 39
Part 2—Information Recording and Character Recognition 104
Conference on Plastics in Telecommunication Cables, London, April 1967 (S) 121
Conveyance of Mail by Electric Vehicles 170
COPPING, B., and FIDDLER, R. G. Designing a Voice-Switched Loudspeaking Telephone—Loudspeaking Telephone No. 4 65
COSIER, J. E. H., and WINDLE, R. W. X-Ray Inspection of Polythene-Insulated Submarine-Cable Joints and Gland Mouldings 280
COYTE, A., and ELLEN, L. W. A Digital-Display Decibelmeter for Audio Frequencies 274

PAGE NO.

CROISDALE, A. C., and HUNT, C. S. Synchronous Multiplex Telegraphy on Intercontinental Submarine Telephone Cables 52
CROOKS, K. R., and HOLMES, A. C. Programmed Learning—A New Design for Training (Part 1) 253
CROSBY, G. W. A Test Instrument with a Direct-Reading Fault Bridge—Ohmmeter No. 18A 285
Crossbar Equipment, Transit Switching Centres Using BXB 1121 302
Customer Response to Telephone Circuits Routed Via a Synchronous-Orbit Satellite 181

D

DANIELS, E. E., and ELLIS, W. A. Switching and Signalling Techniques for the Intercontinental Automatic Telex Service (Parts 1 and 2) 210, 266
DAVIES, W. M., and PERKINS, K. G. The PVR 800 High-Frequency (3–30 MHz) Radio Receiver 204
Decibelmeter for Audio Frequencies, A Digital-Display .. 274
Designing a Voice-Switched Loudspeaking Telephone—Loudspeaking Telephone No. 4 65
Dessicator, Automatic, No. 1A, An Improved Dessicator for Pressurizing Telecommunication Cables— 224
DEUTSCH, E. S. Computer Simulation of a Character-Recognition Machine (Parts 1 and 2) 39, 104
Development of a Box-Building Vehicle, The 131
Digital Display Decibelmeter for Audio Frequencies, A .. 274
Drying Out Joints in Paper-Core Cables (S) 180
Dual-Frequency-Band Horn-Aerial Systems 217

E

Echo Suppressor for Long-Distance Communications, A New 288
Electronic Telephone Exchanges: An Introduction to Switching Network Design 124
Electronic Telephone Exchanges: Reed Relays for Exchange Systems 140
Electronic Telephone Exchanges: Reed-Selector System Field Trial at Belgravia Exchange, London 293
ELEY, A. C., and LOWE, W. T. Electronic Telephone Exchanges: Reed Relays for Exchange Systems .. 140
ELLEN, L. W., and COYTE, A. A Digital-Display Decibelmeter for Audio Frequencies 274
ELLIS, W. A., and DANIELS, E. E. Switching and Signalling Techniques for Intercontinental Automatic Telex Service (Parts 1 and 2) 210, 266
Engineers-in-Chief, Ninety-Seven Years of 83
Equipment, Announcer, No. 9A, A New Announcing Equipment— 264
Error-Correcting Radio-Telegraph Multiplex System, An Automatic 187
European Organization for Quality Control 11th Annual Conference, London, June 1967 226
Exchange Equipment Engineering and Installation Methods, Recent Changes to Telephone 59

F

FIDDLER, R. G., and COPPING, B. Designing a Voice-Switched Loudspeaking Telephone—Loudspeaking Telephone No. 4 65
Fire at Coleshill U.A.X. 14 (S) 310
Fire at Worcestershire Police Headquarters (S) 76
Fowey–Polruan Submarine Cable (S) 236
FRANÇOIS, R. A., and HOLLIGON, E. R. Measuring Quality of Service on Trunk Routes 227
FRANKLIN, R. H. (Retirement) 72
FREEBODY, J. W. H. (Retirement) 233

PAGE NO.

G

GAUNTLETT, R. D. Dual-Frequency-Band Horn-Aerial Systems 217
Grangemouth Exchange, Unusual Corrosion in Lead-in Cables at (S) 310

H

HALEY, G., and KOLANOWSKI, J. Pressure and Temperature Transducers for Deep-Sea Measurements 133
HARRIS, L. R. F. (Appointment as Staff Engineer) .. 74
HAYTHORNTHWAITE, F. Ratchet Relay No. 2 97
HEPPLESTONE, L., and BOAG, J. F. Transatlantic Telephone Cable TAT-I Plus Ten Years 195
HEWARD, F. C. Information Indexing by Computer .. 28
HOLLIGON, E. R., and FRANÇOIS, R. A. Measuring Quality of Service on Trunk Routes 227
HOLMES, A. C., and CROOKS, K. R. Programmed Learning—A New Design for Training (Part 1) 253
Horn-Aerial Systems, Dual-Frequency-Band 217
Human Factors in Telephony 174
HUNT, C. S. A Wideband Multi-Channel Voice-Frequency Telegraph System 10
HUNT, C. S., and CROISDALE, A. C. Synchronous Multiplex Telegraphy on Intercontinental Submarine Telephone Cables 52
HUNT, R. J. The Pole-Erection Unit 93
HUTTER, J. Customer Response to Telephone Circuits Routed Via a Synchronous-Orbit Satellite 181

I

Improved Dessicator for Pressurizing Telecommunication Cables—Dessicator Automatic, No. 1A, An 224
Information Indexing by Computer 28
Inspection of Polythene-Insulated Submarine-Cable Joints and Gland Mouldings, X-Ray 280
Installation of Expedient Racks in Telephone Exchanges (S) 157
Institution of Post Office Electrical Engineers 75, 154, 234, 308
Integrated Circuits, Semiconductor Device Developments: (Parts 1 and 2) 20, 110
ITHELL, A. H., and WILLIAMS, F. E. A New Artificial Ear .. 47

J

JEYNES, E. Planning and Works Aspects of 24-Circuit Pulse-Code-Modulation Systems 33
Joint Loading of Local-Line Cables 101
Joints and Gland Mouldings, X-Ray Inspection of Polythene-Insulated Submarine-Cable 280
JOLLEY, E. H. Ninety-Seven Years of Engineers-in-Chief .. 83

K

Kidderminster Inner Ring Road (S) 158
KOLANOWSKI, J., and HALEY, G. Pressure and Temperature Transducers for Deep-Sea Measurements 133

L

LAVER, K. S. The Progressive Development of Routiners for Automatic Telephone Exchanges 118
Lifter, Manhole Cover, No. 3, A New Manhole-Cover Lifter— 251
LLOYD, H. F., and SIXSMITH, J. A Television-Network Switching Equipment to 625-Line Colour Standards .. 199
Loading of Local-Line Cables, Joint 101
Long-Distance Communications, A New Echo Suppressor for 288
Loudspeaking Telephone No. 4, Designing a Voice-Switched Loudspeaking Telephone— 65
LOWE, W. T., and ELEY, A. C. Electronic Telephone Exchanges: Reed Relays for Exchange Systems .. 140

M

Manhole Cover, No. 3, A New Manhole-Cover Lifter—Lifter, ... 251
MARCHINTON, A., and SHEPPARD, N. F. Quality Control of Brazed Seals in Deep-Sea Repeaters 44
MARTIN, J. Electronic Telephone Exchanges: An Introduction to Switching Network Design 124
McLUSKY, R. F., WALKER, N., and STALLWORTHY, F. A. Transit Switching Centres Using BXB 1121 Crossbar Equipment (Part 1) 302
Measuring Quality of Service on Trunk Routes 227
Men, Circuits and Systems in Telecommunications .. 241
MERRIMAN, J. H. H. (Appointment as Senior Director of Engineering) 139
MERRIMAN, J. H. H. Men, Circuits and Systems in Telecommunications 241
Miniature Public-Address System (S) 77
MORGAN, T. J. (Appointment as Chief Regional Engineer) 153
MORTON, W. D. Semiconductor Device Developments: Integrated Circuits (Parts 1 and 2) 20, 110
MOTT, W. W. An Improved Dessicator for Pressurizing Telecommunication Cables—Dessicator, Automatic, No. 1A 224
MURRAY, W. J. A Voice-Frequency Signalling System for Out-of-Area Exchange Lines 259
MYERSON, R. J. W. St. Margaret's Bay–La Panne 420-Circuit Submarine-Cable System with Transistor-Type Submerged Repeaters 1

N

New Announcing Equipment—Equipment, Announcer, No. 9A, A 264
New Artificial Ear, A 47
New Dial-Pulse Detector, A 300
New Echo Suppressor for Long-Distance Communications, A 288
New Manhole-Cover Lifter—Lifter, Manhole Cover, No. 3, A 251
New Telephone Manager's Office for Belfast (S) 76
NEWELL, E., and PEACOCK, R. D. Electronic Telephone Exchanges: Reed-Selector System Field Trial at Belgravia Exchange, London 293
Ninety-Seven Years of Engineers-in-Chief 83
Notes and Comments 72, 150, 233, 308

O

Ohmmeter No. 18A, A Test Instrument with a Direct-Reading Fault Bridge— 285
Out-of-Area Exchange Lines, A Voice-Frequency Signalling System for 259

P

PEACOCK, R. D., and NEWELL, E. Electronic Telephone Exchanges: Reed-Selector System Field Trial at Belgravia Exchange, London 293
Peldon U.A.X. 13, Removal of (S) 311
PERKINS, K. G., and DAVIES, W. M. The PVR 800 High-Frequency (3–30 MHz) Radio Receiver 204
Planning and Works Aspects of 24-Circuit Pulse-Code-Modulation Systems 33
Plastics in Telecommunication Cables, London, April 1967, Conference on (S) 121
Pole-Erection Unit, The 93
Polythene-Insulated Submarine-Cable Joints and Gland Mouldings, X-Ray Inspection of 280
Post Office Relay Type 2D (S) 168
Pressure and Temperature Transducers for Deep-Sea Measurements 133
Programmed Learning—A New Design for Training Part 1—An Introduction to Programmed Learning .. 253
Progressive Development of Routiners for Automatic Telephone Exchanges, The 118
Public Utility Street Works Act, 1950: Calculation of Benefit by Deferment of Renewal Allowance (S) .. 19
Pulse-Code-Modulation Systems, Planning and Works Aspects of 24-Circuit 33
PVR 800 High-Frequency (3–30 MHz) Radio Receiver, The 204
PYRAH, J. D. Call-Failure Detection Equipment: Interim Equipment for Director and Non-Director Exchanges 202

Q

Quality Control 11th Annual Conference, London, June 1967, European Organization for 226
Quality Control of Brazed Seals in Deep-Sea Repeaters .. 44
Quality of Service on Trunk Routes, Measuring 227

PAGE NO.

R

Radio Receiver, The PVR 800 High-Frequency (3–30 MHz) 204
Radio-Telegraph Multiplex System, An Automatic Error-Correcting 187
Ratchet Relay No. 2 97
Recent Changes to Telephone Exchange Equipment Engineering and Installation Methods 59
Reed Relays for Exchange Systems, Electronic Telephone Exchanges: 140
Reed-Selector System Field Trial at Belgravia Exchange, London, Electronic Telephone Exchanges: 293
Regional Notes 76, 156, 236, 310
Relay Type 2D, Post Office (S) 168
Relay, No. 2, Ratchet 97
Relief of Skelmersdale, The (S) 236
Removal of Peldon U.A.X. 13 (S) 311
Repeaters, Quality Control of Brazed Seals in Deep-Sea .. 44
ROBINSON, H. E., and BISHOP, K. G. T. Joint-Loading of Local-Line Cables 101
Rocket-Assisted Maintenance (S) 158
Routiners for Automatic Telephone Exchanges, The Progressive Development of 118

S

SANDER, D. H. Conveyance of Mail by Electric Vehicles .. 170
SANDS, M. J. E. A New Dial-Pulse Detector 300
Satellite, Customer Response to Telephone Circuits Routed via a Synchronous-Orbit 181
SCOWEN, F. (Appointment as Staff Engineer) 153
Semiconductor Device Developments: Integrated Circuits.
Part 1—Construction, Properties and Applications .. 20
Part 2—Standard Logic Circuits.. 110
Severn Bridge and Wye Viaduct (S) 77
SHANKS, P. H. A New Echo Suppressor for Long-Distance Communications 288
SHEPPARD, N. F., and MARCHINTON, A. Quality Control of Brazed Seals in Deep-Sea Repeaters 44
Signalling and Switching Aspects of the Trunk Transit Network, The 165
Signalling System for Out-of-Area Exchange Lines, A Voice-Frequency 259
Signalling Techniques for the Intercontinental Automatic Telex Service, Switching and (Parts 1 and 2) .. 210, 266
625-Line Colour Standards, A Television-Network Switching Equipment to 199
SIXSMITH, J., and LLOYD, H. F. A Television-Network Switching Equipment to 625-Line Colour Standards .. 199
Staff Changes 80, 161, 239, 314
STALLWORTHY, F. A., MCLUSKY, R. F., and WALKER, N. Transit Switching Centres Using BXB 1121 Crossbar Equipment (Part 1) 302
St. Margaret's Bay–La Panne 420-Circuit Submarine-Cable System with Transistor-Type Submerged Repeaters .. 1
Submarine-Cable Joints and Gland Mouldings, X-Ray Inspection of Polythene-Insulated 280
Submarine-Cable System with Transistor-Type Submerged Repeaters, St. Margaret's Bay–La Panne 420-Circuit .. 1
Submarine Telephone Cables, Synchronous Multiplex Telegraphy on Intercontinental 52
Switching and Signalling Techniques for the Intercontinental Telex Service
Part 1—Type C Signalling 210
Part 2—London (Fleet) Intercontinental Telex Exchange 266
Switching Aspects of the Trunk Transit Network, The Signalling and 165
Switching Equipment to 625-Line Colour Standards, A Television-Network 199
Switching Network Design, Electronic Telephone Exchanges: An Introduction to 124
Synchronous Multiplex Telegraphy on Intercontinental Submarine Telephone Cables 52
Systems in Telecommunications, Men, Circuits and .. 241

PAGE NO.

T

TAT-I Plus Ten Years, Transatlantic Telephone Cable .. 195
Telecommunications, Men, Circuits and Systems in .. 241
Telegraph-System, A Wideband Multi-Channel Voice-Frequency 10
Telegraphy on Intercontinental Submarine Telephone Cables, Synchronous Multiplex 52
Telephone Circuits Routed Via a Synchronous-Orbit Satellite, Customer Response to 181
Telephony, Human Factors in 174
Television-Network Switching Equipment to 625-Line Colour Standards 199
Telex Service, Switching and Signalling Techniques for the Intercontinental Automatic (Parts 1 and 2) .. 210, 266
Test Instrument with a Direct-Reading Fault Bridge—Ohmmeter No. 18A, A 285
THOMAS, J. F. P. (Appointment as Staff Engineer) 73
TOBIN, W. J. E. The Signalling and Switching Aspects of the Trunk Transit Network 165
Training, Programmed Learning—A New Design for .. 253
Transatlantic Telephone Cable TAT-I Plus Ten Years .. 195
Transducers for Deep-Sea Measurements, Pressure and Temperature 133
Transistor-Type Submerged Repeaters, St. Margaret's Bay–La Panne 420-Circuit Submarine-Cable System with .. 1
Transit Switching Centres Using BXB 1121 Crossbar Equipment
Part 1—Trunking, Facilities and General Operation .. 302
Transit Network, The Signalling and Switching Aspects of the 165
Transportable Apparatus Hoist, A (S) 157
Trench-Cutting Machines 14
Trunk Routes, Measuring Quality of Service on 227
Tunnelling by Pipe Thrusting in Birmingham (S) 312
TYRRELL, W. The Development of a Box-Building Vehicle 131

U

Unusual Corrosion in Lead-in Cables at Grangemouth Exchange (S) 310
Unusual Duct and Manhole Problem (S) 156

V

Vehicles, Conveyance of Mail by Electric 170
Voice-Frequency Signalling System for Out-of-Area Exchange Lines, A 259
Voice-Frequency Telegraph System, A Wideband Multi-Channel 10
Voice-Switched Loudspeaking Telephone—Loudspeaking Telephone No. 4, Designing a 65

W

WALKER, N., STALLWORTHY, F. A., and MCLUSKY, R. F. Transit Switching Centres Using BXB 1121 Crossbar Equipment (Part 1) 302
Wideband Multi-Channel Voice-Frequency Telegraph System, A 10
WILLIAMS, F. E., and AYERS, E. W. Human Factors in Telephony 174
WILLIAMS, F. E., and ITHELL, A. H. A New Artificial Ear .. 47
WILLIAMS, M. B. (Appointment as Deputy-Director of Engineering) 233
WINDLE, R. W., and COSIER, J. E. H. X-Ray Inspection of Polythene-Insulated Submarine-Cable Joints and Gland Mouldings 280
WRAY, D. (Appointment as Deputy-Director of Engineering) 151

X

X-Ray Inspection of Polythene-Insulated Submarine-Cable Joints and Gland Mouldings 280

Published by *The Post Office Electrical Engineers' Journal*, G.P.O., 2–12 Gresham Street, London, E.C.2, and printed in Great Britain by Unwin Brothers, Woking and London
